EDUCATION

Naraina College of Engineering and Technology, Kanpur

Master of Computer Application (MCA)

July 2025

Kanpur, India

SKILLS / COURSEWORK

- HTML
- CSS
- JavaScript
- MongoDB
- Express Js
- React JS
- Tailwind CSS

PROJECT

Fanta Brand Website — HTML, CSS, JavaScript

2025

- Developed a fully **responsive and visually engaging Fanta brand website** inspired by modern beverage branding.
- Designed an **interactive user interface** using vibrant colors, smooth animations, and hover effects to reflect Fanta's fun and energetic identity.
- Implemented **JavaScript-based interactivity**, including dynamic sections, animated transitions, and user engagement effects.
- Ensured **cross-browser compatibility** and mobile-first responsiveness for seamless performance across devices.
- Optimized layout and assets to deliver a **fast, smooth, and user-friendly experience**.

React E-Commerce Website — React JS, Tailwind CSS

2025

- Developed a **full-stack e-commerce web application** using React for the frontend and Node.js with Express for the backend.
- Implemented **user authentication and authorization** including login and registration functionality.
- Built a fully functional **shopping cart system** allowing users to add, remove, and update products.
- Created REST full APIs for **product management, user management, and cart operations**.
- Ensured a **responsive, user-friendly UI** with smooth navigation and optimized performance.

TaxiNova Website — React JS, CCS ,Express JS , MONGODB

2026

- Developed a **ride-sharing web application** that allows users to book rides based on pickup and drop locations.
- Implemented **user authentication system** (login/signup) for secure access.
- Designed an intuitive UI for **real-time ride booking and fare estimation**.
- Integrated **location-based services** to calculate distance and optimize routes.

Flower- Website — React JS, CCS ,Express JS , MongoDB

2026

- Developed a **responsive flower e-commerce website** to showcase and sell floral products online.
- Designed an attractive UI with **modern layouts and custom CSS** for better user experience.
- Implemented **product listing and category filtering** (roses, tulips, bouquets, etc.).
- Built **Add to Cart and Checkout functionality** for smooth purchasing flow.
- Integrated **user authentication system** (login/signup) for personalized experience.
- Developed backend APIs using **Node.js and Express** for handling product and user data.
- Used **MongoDB database** to store product details, orders, and user information.
- Implemented **order management system** for tracking purchases.
- Ensured **mobile responsiveness and cross-browser compatibility**.
- Focused on **performance optimization and clean UI design**.

Gallery-Image-System— HTML CSS, Java Script

2026

- Developed a **responsive image gallery web application** to display and manage images efficiently.
- Implemented **image upload functionality** with preview and validation.
- Designed a clean UI with **grid layout and custom CSS** for better user experience.
- Added features like **image filtering, search, and categorization**.

INTERNSHIP / EXPERIENCE

Digi Coders 6-Month Apprenticeship 2025

July 2025 – December

Mern Stack Developer

Remote / Online

- Completed a 6-month full-stack web development apprenticeship focusing on HTML CSS React JS, Node JS, Express JS, and MongoDB.

Received certificate of completion from Digi Coders.

CERTIFICATIONS

- Digi Coders - MERN Stack Developer
- React JS
